August, 2013

Dear Parent(s)/Guardians:

Throughout the school year there will be occasions when your child will be asked to participate in “teachable moment” field trips within walking distance of the school. These may be spur of the moment or planned in advance and could include a walk to the police or nurse station, local park, use of the Faro trail network, etc. Some other low risk field trips that students can access through walking include swimming at the pool (with lifeguard supervision), snow shoeing, tobogganing, cross country skiing, golfing etc. within the Faro town limits as part of the PE program. Teachers must have permission from the principal/designate to leave the school grounds with their classes and satisfy all safety planning requirements for field trips. These trips are meant to be short in duration and to take place during school hours.

To avoid the need to send home and collect numerous permission slips over the school year, this permission form will serve in its place. Please note this form does not include permission for your child to go skating, canoeing, or other activities that are deemed by the principal to be of a more moderate risk. Nor does it include permission to transport your child by vehicle, as separate forms will be used in these circumstances.

With your signature your child will have permission to participate in the above mentioned trips.

Sincerely,

Angela Magon  
Principal, Del Van Gorder School

I give my daughter/ son \_\_\_\_\_ permission to participate in walking field  
(print name)  
trips and the PE sport trips listed above during the 2013 2014 school year.
